

National regulations, Austria:

The BMLFUW will fund research TOPICS 2 and 3.

For one eligible project there will be only one contract between BMLFUW and the respective Austrian partner, whereas additional Austrian partners shall be subcontracted.

After the final selection for funding of a proposal the Austrian partner, if any, has to submit the project via www.dafne.at.

Requested BMLFUW contribution shall not exceed the budget provided in the table of the indicative call budget.

Amortisation costs for equipment can be requested in proportion to the share considered relevant for the project.

Travel and meeting costs are eligible according to the Austrian "RGV".

Overhead costs must be shown with their calculation basis (maximum 20% of direct costs).

Payments by BMLFUW principally consist of prepayment, payment after approval of the Interim Report, and a final payment after the approval of the Final Report (min. 10% of total).

In-kind contribution of the contracted Austrian partner shall be at least 10% of the total national costs.
